EDUCATION

The Ohio State University

Columbus, OH

Ph.D. in Agricultural, Environmental, and Development Economics
(expected)

Aug 2022 – Aug 2027

Fields: Environmental and Resource Economics; Mechanism Design; Spatial Econometrics

Advisor: Dr. Brian Roe

Ohio University

Athens, OH

M.A. in Applied Economics

Aug 2018 – Aug 2019

Thesis: “Allocation of Fruit and Vegetable Spending and the Prevalence of Obesity”

Advisors: Dr. Tia McDonald and Dr. Courtney Rodet

GPA: 4.0/4.0

Ohio University

Athens, OH

B.A. in Economics and Data Analytics

Aug 2014 – May 2018

GPA: 3.8/4.0

JOB MARKET PAPER

“How Spillovers Erode Participation in Conservation Buybacks: Evidence from the Texas Inshore Shrimp Fishery”

Abstract: Buyback programs are widely used to cut overcapacity in settings from land retirement to fisheries, but standard evaluations stop at the program boundary and miss the spillovers that removals create. Using the Texas Parks and Wildlife Department’s 26-year inshore shrimp license buyback, I estimate a two-stage structural model of vessels’ fishing and retirement decisions and simulate program participation. As capacity is removed, the rising continuation value of those who remain leads them to hold out, and roughly two-thirds of retired licenses were already inactive, so the program erodes both its own participation and its additionality through the benefits it creates for the fishers who stay.

WORKING PAPERS

“Information, Risk, and Irreversible Adoption in Agglomeration Bonus Contracts.” *Revise and Resubmit, Environmental and Resource Economics.*

Research supported by USDA NRCS, Regional Conservation Partnership Program.

AWARDS AND HONORS

Farm Foundation Agricultural Scholars Program (USDA ERS & Farm Foundation)	2026
Bernie Erven Graduate Teaching Award, AEDE, The Ohio State University	2026
George and Florence McGhee Memorial Scholarship	2026

CONFERENCE PRESENTATIONS

"How Spillovers Erode Participation in Conservation Buybacks: Evidence from the Texas Inshore Shrimp Fishery." Poster, Agricultural & Applied Economics Association (AAEA) Annual Meeting, Kansas City, MO. 2026

"How Spillover Effects Erode Cost-Efficiency of Fishing Vessel Decommissioning Auctions, and How to Fix Them Using Agglomeration Bonuses." Poster, AAEA Annual Meeting, Denver, CO. 2025

"Risk-Coping, Strategic Delay, and Signaling in Agglomeration Bonus Mechanisms: Evidence from a Laboratory Experiment." Poster, AAEA Annual Meeting, Denver, CO. 2025

"Allocation of Fruit and Vegetable Spending and the Prevalence of Obesity." Ohio Association of Economists and Political Scientists, John Carroll University, OH. 2019

TEACHING EXPERIENCE

Teaching Assistant, Department of AEDE The Ohio State University
AEDE 2005: Data Analysis for Agribusiness and Applied Economics Spring 2026
 Designed original exam materials; facilitated group project-focused office hours.
 Led lab sessions on applied data analysis methods.

AEDE 4002: Analytics for Agribusiness and Applied Economics Fall 2025
Led weekly lab sessions; developed interactive materials and Excel-based assignments.

AEDE 4330: Sustainable Economy: Concepts and Methods 2023 – 2025
Assisted in course management on Canvas; coordinated with faculty on assessment design.
Designed and graded assignments emphasizing empirical applications of sustainability metrics.

Graduate Assistant Ohio University
Department of Economics Aug 2018 – Aug 2019
Graded assignments and exams for undergraduate and graduate economics courses.

Peer Tutor, Academic Achievement Center Ohio University
Economics, Statistics, Calculus, and Finance Aug 2015 – Aug 2017
Conducted over 200 one-on-one tutoring sessions.
Trained to support diverse student populations and learners with disabilities.

RESEARCH EXPERIENCE

Economic Development Specialist Ohio University
Voinovich School of Leadership and Public Affairs Jan 2021 – Aug 2022
Analyzed datasets on poverty and economic development in Appalachian Ohio.
Co-authored peer-reviewed papers in public policy and regional economics.

Research Assistant Ohio University
Voinovich School of Leadership and Public Affairs May 2019 – Aug 2020
Conducted applied econometric analyses and data visualization using R and Stata.
Analyzed survey results from economic development practitioners and policymakers.

SKILLS

Programming: R (panel, spatial, structural, and causal modeling), Stata, MATLAB, Python

Econometric Methods: Structural estimation, experimental and quasi-experimental design, difference-in-differences, synthetic control methods

Theory: Auction theory, mechanism design, game theory (applied to environmental procurement and fisheries management)
