

D. Eric Belleville Jr.

Department of Agricultural, Environmental, and Development Economics
The Ohio State University

belleville.11@osu.edu · (440) 384-4185 · [Website](#)

EDUCATION

The Ohio State University Columbus, OH
Ph.D. in Agricultural, Environmental, and Development Economics Aug 2022 – Aug 2027
(expected)
Fields: Environmental and Resource Economics; Spatial Econometrics; Mechanism Design
Advisor: Dr. Brian Roe

Ohio University Athens, OH
M.A. in Applied Economics Aug 2018 – Aug 2019
Thesis: “Allocation of Fruit and Vegetable Spending and the Prevalence of Obesity”
Advisors: Dr. Tia McDonald and Dr. Courtney Rodet
GPA: 4.0/4.0

Ohio University Athens, OH
B.A. in Economics and Data Analytics Aug 2014 – May 2018
GPA: 3.8/4.0

JOB MARKET PAPER

“How Spillovers Erode Participation in Conservation Buybacks: Evidence from the Texas Inshore Shrimp Fishery”

Abstract: Buyback programs are widely used to cut overcapacity in settings from land retirement to fisheries, but standard evaluations stop at the program boundary and miss the spillovers that removals create. Using the Texas Parks and Wildlife Department’s 26-year inshore shrimp license buyback, I estimate a two-stage structural model of vessels’ fishing and retirement decisions and simulate program participation. As capacity is removed, the rising continuation value of those who remain leads them to hold out, and roughly two-thirds of retired licenses were already inactive, so the program erodes both its own participation and its additionality through the benefits it creates for the fishers who stay.

WORKING PAPERS

“Information, Risk, and Irreversible Adoption in Agglomeration Bonus Contracts.” *Revise and Resubmit, Environmental and Resource Economics*.

Research supported by USDA NRCS, Regional Conservation Partnership Program.

GRANTS AND FUNDING

Graduate research support through USDA NRCS, Regional Conservation Partnership Program (RCPP Project 2603) 2024 – Present

Supported project investigators through laboratory research on agglomeration-bonus mechanisms and conservation adoption.

AWARDS AND HONORS

Bernie Erven Graduate Teaching Award, AEDE, The Ohio State University	2025
Farm Foundation Agricultural Scholars Program (USDA ERS & Farm Foundation)	2026
George and Florence McGhee Memorial Scholarship	2026

CONFERENCE PRESENTATIONS

Capstone Research Presentation (scheduled), Farm Foundation Agricultural Scholars Program, USDA Economic Research Service, Washington, DC. Oct 2026

“How Spillovers Erode Participation in Conservation Buybacks: Evidence from the Texas Inshore Shrimp Fishery.” Poster, Agricultural & Applied Economics Association (AAEA) Annual Meeting, Kansas City, MO. 2026

“How Spillover Effects Erode Cost-Efficiency of Fishing Vessel Decommissioning Auctions, and How to Fix Them Using Agglomeration Bonuses.” Poster, AAEA Annual Meeting, Denver, CO. 2025

“Risk-Coping, Strategic Delay, and Signaling in Agglomeration Bonus Mechanisms: Evidence from a Laboratory Experiment.” Poster, AAEA Annual Meeting, Denver, CO. 2025

“Allocation of Fruit and Vegetable Spending and the Prevalence of Obesity.” Ohio Association of Economists and Political Scientists, John Carroll University, OH. 2019

TEACHING EXPERIENCE

Teaching Assistant, Department of AEDE

The Ohio State University

AEDE 4106: Strategic Management Fall 2026

Supported instruction in Capsim business simulation and strategic decision-making.
Delivered selected course lectures and assisted with student projects and assessment.

AEDE 3102: Principles of Agribusiness Marketing Fall 2026

Delivered selected course lectures and supported instruction in agribusiness marketing concepts.
Assisted with course activities, student questions, and assessment as assigned.

AEDE 2005: Data Analysis for Agribusiness and Applied Economics Spring 2026

Designed original exam materials; facilitated group project-focused office hours.
Led lab sessions on applied data analysis methods.

AEDE 4330: Sustainable Economy: Concepts and Methods Fall 2025

Assisted in course management on Canvas; coordinated with faculty on assessment design.
Designed and graded assignments emphasizing empirical applications of sustainability metrics.

AEDE 4002: Analytics for Agribusiness and Applied Economics 2023 – 2025

Led weekly lab sessions; developed interactive materials and Excel-based assignments.

Undergraduate Student Mentor

The Ohio State University

Experimental Economics Research

Mentored an undergraduate researcher through IRB approval, oTree experiment setup and deployment, and experimental-session proctoring.
Trained and supervised consent-form collection, experimental data recording, and research protocols.

Graduate Assistant

Ohio University

Department of Economics

Aug 2018 – Aug 2019

Graded assignments and exams for undergraduate and graduate economics courses.

Peer Tutor, Academic Achievement Center

Ohio University

Economics, Statistics, Calculus, and Finance

Aug 2015 – Aug 2017

Conducted over 200 one-on-one tutoring sessions.

Trained to support diverse student populations and learners with disabilities.

RESEARCH EXPERIENCE

Graduate Research Associate, Dept. of Food, Agricultural & Biological Engineering

The Ohio State University

Pilot Watershed Project

2024 – Present

Reviewed and synthesized literature on agglomeration-bonus mechanisms and conservation incentives for project discussions.

Developed related laboratory research on agglomeration-bonus mechanisms and conservation adoption.

Participated in producer- and stakeholder-facing outreach events related to agricultural conservation and water quality.

Economic Development Specialist

Ohio University

Voinovich School of Leadership and Public Affairs

Jan 2021 – Aug 2022

Analyzed datasets on poverty and economic development in Appalachian Ohio.

Conducted commissioned economic impact analyses for private firms and nonprofit institutions, including the Ohio Foundation of Independent Colleges.

Communicated findings through client-facing reports and applied policy deliverables.

Co-authored peer-reviewed papers in public policy and regional economics.

Research Assistant

Ohio University

Voinovich School of Leadership and Public Affairs

May 2019 – Aug 2020

Conducted applied econometric analyses and data visualization using R and Stata.

Analyzed survey results from economic development practitioners and policymakers.

SKILLS

Programming: R (panel, spatial, structural, and causal modeling), Stata, MATLAB, Python

Econometric Methods: Structural estimation, experimental and quasi-experimental design, difference-in-differences, synthetic control methods

Theory: Auction theory, mechanism design, game theory (applied to environmental procurement and fisheries management)
